

- A legend consisting of colored squares next to their corresponding protein names:

 - Rubisco subunit (green)
 - Photosystem protein (light green)
 - Cytochrome-related (yellow-green)
 - ATP synthase (yellow)
 - NADH dehydrogenase (purple)
 - Ribosomal protein subunit (blue)
 - Ribosomal RNA (cyan)
 - Plastid-encoded RNA polymerase (dark blue)
 - Other (red)
 - Unknown function / Unnamed (ycf) (pink)
 - Transfer RNA (grey)
 - Intron (grey)
